

FPG announces the departure of its Director Nicolas Robin

Brussels: May 2024

After four years of dedicated service, FPG Director Nicolas Robin has decided to embark on an exciting new chapter in his career. His last day in his current role will be May 24.

Under Nicolas' leadership, FPG has positioned itself as a key stakeholder in the PFAS REACH restriction debate. Nicolas has been instrumental in demonstrating the fluoropolymer industry's commitment in controlling emissions throughout the entire value chain, as well as positioning fluoropolymers as key products in applications critical to the development of an EU sustainable economy.

We would like to thank Nicolas for having fostered a culture of collaboration throughout the organisation and beyond, and we wish him all the best as he embarks on this new journey.

Ronald Bock

Chairman of the Plastics Europe Fluoropolymer Product Group
