

FPG Announcement

Fluoropolymer Product Group Announces New Leadership

Brussels, 18 June 2026

We are pleased to announce that **Dr. Guido Möller (Daikin Chemical Europe) will succeed Ronald Bock (AGC) as the new Chair of the Fluoropolymers Product Group (FPG)**. A chemist by training, Dr. Möller has 30 years of experience within the European fluoropolymer industry. He has held various sales and management positions at Daikin Chemical Europe, serving as Business Director Fluoropolymers Europe from 2016 to 2020, and most recently operating as the Director of Advocacy and Public Affairs since 2021.

In his new leadership role, **Guido will be supported by Rosanna Accettura (Syensqo) and Dr. Jacques Ragot (Chemours)**, who become Vice-Chairs and bring valuable expertise in public affairs and policy. **Rosanna** is a chemical policy manager drawing on her previous experience as a public affairs consultant where she led regulatory advocacy campaigns for trade associations and companies. **Jacques** currently leads global advocacy for Chemours and brings over 20 years of experience in public affairs and product stewardship advocating for essential chemistries.

FPG would like to extend its thanks to Ronald Bock who was its Chair for more than 12 years. We are deeply grateful for his leadership and energy in contributing to the work of FPG.
